

Handle control

1. Using of Handle:

About how to Handle, please read **【5.Expand Course】----【5.2 Using of the handle】**.

2. About code:

Please refer to the **[9.Code]---[10.Using of Handle]---[Handle control.ipynb]**

3. Experimental phenomena:

After the program is running, **we need to first press the ANALOG button in the middle of the handle to switch to the simulation mode.**

The handle function is defined as shown below:
